FROM THE EDITOR'S DESK

A Journey of Transformation at Hindustan International School. The past four to five months at Hindustan International School have been a remarkable journey of growth, discovery, and transformation. What began as a new learning environment has steadily evolved into a vibrant space where children are not merely learning lessons, but discovering their voices, building confidence, developing values, and experiencing the joy of learning.

At HIS, we believe that every child learns differently, and therefore, learning must extend far beyond textbooks and conventional classrooms. Our classrooms have increasingly become spaces for exploration, experimentation, creativity, collaboration, and hands-on learning. Innovation has become an important part of the HIS learning experience. Children are encouraged to think differently, ask questions, experiment with possibilities, and find solutions rather than simply look for answers. Hands-on activities, learning resources, technology-integrated classrooms, creative projects, and experiential learning have given children opportunities to turn their imagination into something tangible. The objective is not simply to produce children who can remember information, but children who can think, create, question, collaborate, and innovate. The progress achieved over the past four to five months represents the collective effort of our educators, children, parents, and the entire HIS community. Every classroom experience, every activity, every conversation, every project, and every opportunity provided to a child has contributed to this transformation. The upcoming assessments will therefore be much more than an assessment of academic learning. It will provide an opportunity to showcase the journey our children have undertaken—their knowledge, skills, confidence, creativity, communication, values, and ability to apply what they have learned. It will be a moment to see how far they have come, what they have absorbed, and how learning has translated into growth.

We learn. We explore. We create. We grow.

And together, we are becoming HIS.

KRISHNA JAYANTHI

Krishna Jayanthi was celebrated with great joy, excitement, and devotion at HISTAR. The celebration brought a colourful and festive atmosphere to the school as the tiny tots came dressed up Lord Krishna and Radha in beautiful traditional costumes. The children looked adorable in their vibrant outfits and enjoyed dancing happily to melodious Krishna songs. As part of the celebration, the children watched the story of Mathura and learned about the life and childhood of Lord Krishna. They also took part in a creative activities like making and decorating their own crowns. The day was filled with music, colours, creativity, and happy moments.

And Devotion.**

HIS TALKS

HIS Talks, a TED Talk-inspired initiative, gave students a platform to explore ideas and speak with confidence. Ahead of the event, the Principal delivered a model TED Talk, offering students an insight into impactful speaking and presentation. Students selected topics from a curated list, while some chose subjects of their own interest. The initiative nurtured research, creativity, critical thinking and confident communication, turning the stage into a space where young voices could be heard and ideas could shine.

TEACHER'S DAY

Teachers' Day was marked with a series of thoughtfully organised activities by the students to honour and appreciate their teachers. The programme featured graceful dance performances and light-hearted games. Students also presented respectful and humorous imitations of their teachers. A quiz centred on the school premises, including questions about its facilities added an engaging element to the programme. The celebrations concluded with the teachers joining the students for a dance, followed by a cake-cutting ceremony. The event served as a fitting tribute to the teachers and their enduring contribution.

SPELL BEE COMPETITION

The Spell Bee competition offered students a stimulating platform to sharpen their spelling and enrich their vocabulary. Subsequent levels featured age-appropriate words drawn from The Hindu, encouraging students to explore unfamiliar vocabulary and broaden their word bank. Their confident performance reflected their growing linguistic proficiency and love for learning.

NUTRITION WEEK

Nutritional Week was observed from 11th to 15th September with the aim of inculcating healthy eating habits and creating awareness about the importance of nutritious food among students. As part of the initiative, students brought and explored a variety of healthy food choices, including fresh fruits, vegetable salads, pulses, grains, nuts, seeds, and nutritious homemade snacks. The initiative encouraged students to understand the value of a balanced diet and make healthier food choices in their daily lives.

NATIONAL ENGINEERS DAY

HIS observed National Engineers' Day on 16 September 2026 with an engaging morning assembly on the theme "Thinking Like an Engineer in Daily Life." The assembly commemorated the birth anniversary of Bharat Ratna Dr. M. Visvesvaraya and highlighted his remarkable contribution to engineering and nation-building.

Students explored the fascinating story of the invention of the wheel, one of humanity's earliest and most transformative inventions. They were encouraged to develop an engineering mindset by being curious, thinking critically, and finding creative solutions to everyday problems. The session emphasised that even simple actions, such as fixing a wheel on a toy car, demonstrate the essence of engineering—identifying a problem and finding a solution.

INTERNATIONAL DAY OF PEACE

A special assembly was conducted to commemorate the International Day of Peace, emphasising harmony, compassion, and peaceful coexistence. The students were enlightened on the significance of the day and the importance of nurturing peace through everyday actions. The Students were urged to begin the journey of peace within their circle, inspiring them to become compassionate peace-makers in the community. The assembly concluded with a solemn Peace Oath, reaffirming the students' commitment to kindness, respect, and harmony.

GRANDPARENTS DAY

Grandparents Day was celebrated with immense joy and enthusiasm, bringing together the little learners and their beloved grandparents for a special day filled with love, laughter, and cherished memories. The grandparents actively participated in fun and engaging games with their grandchildren and enjoyed every moment of the celebration.

A special post box was arranged for the occasion, where grandparents wrote heartfelt letters to their grandchildren and dropped them in with great excitement. The children also expressed their love and gratitude through a special tribute song and video dedicated to their grandparents.

SUMMATIVE ASSESSMENT - I

The Summative Assessment commenced on 25th September marks an important phase in the academic journey of our students. After months of dedicated learning, consistent practice, and sincere effort, students are now assessed on their skills. The assessment serves as a meaningful reflection of the hard work, perseverance and academic growth for them to apply what they have learnt, approach challenges with confidence, and demonstrate their progress. This assessment stands as a testament to their commitment, preparation, and continuous pursuit of excellence.
